

BYOD REQUIREMENTS

PURPOSE OF THIS DOCUMENT

This document outlines the minimum requirements for using a non-school provided device to access the **Accel Management Platform (for Education)**, *also known as AMP*. The information in this document serves as a guide. Minimum requirements may vary depending on the device and browser being used. If you still have questions after reviewing this document, contact AMP Support at <https://4amphlp.accelschools.com>.

MINIMUM SYSTEM REQUIREMENTS

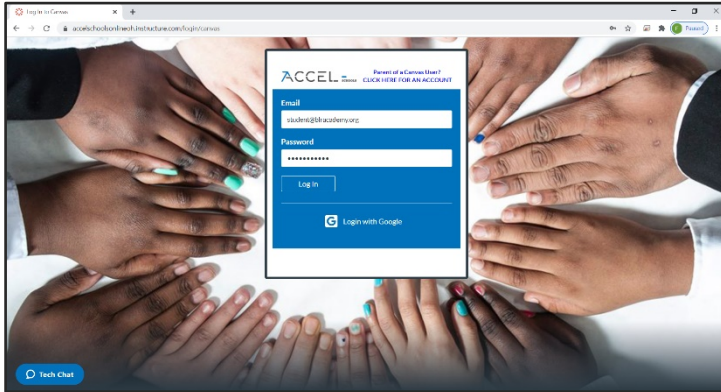

Use a computer or laptop 5 years old or newer when possible that meets the following Hardware, Operating System, Web Browser, and Internet Speed specifications:

MINIMUM HARDWARE NEEDED	
Processor	Speed of 1.5 GHz or higher
RAM	2 GB of memory or higher
Hard Drive	100 MB of higher
Video Card	DirectX 9 Compatible Graphics Card
Sound	For audio, we strongly recommend using a headset. A headset will ensure that others can hear your voice clearly and you eliminate echo or background noise for others. Any basic headset with a built-in microphone will work.
MINIMUM OPERATING SYSTEM VERSION	
Any Operating System compatible of running compatible Web Browsers (see below).	
Web Browsers Compatible	
Installed on Desktop or Laptop	Chrome, Firefox or Edge (latest versions)
Mobile iOS	(12.2+): Safari Mobile
Mobile Android	(6.0+): Chrome Mobile
Internet Speed	
Home Internet Users	For bandwidth, have at least 1.0 Mbits/second upstream and 2 Mbits/second downstream.
Mobile Device Users	<ol style="list-style-type: none"> 1. For data network, we recommended 4G LTI for best results or minimum 3G Network to use audio, view presentation content, and receive screen sharing. 2. For connection via wireless, we recommend private versus public networks. 3. For device settings, we recommend reducing device usage while connecting to online courses.
